

Subject Index

Entsprechend der internationalen Verbreitung der Zeitschrift werden die Stichwörter in diesem Verzeichnis in Englisch gebracht; die Arbeitstitel werden in der Originalsprache zitiert.

As appropriate to the international readership of the journal entries in the index will be in English. Titles of papers will be given in the language of publication.

Acetylcholinesterase

Methods for the estimation of acetylcholinesterase activity in erythrocytes of laboratory animals given carbamates or organophosphorus compounds 197

Investigations on the correlation between abnormalities of neuromuscular transmission due to some organophosphates and activity of acetylcholinesterase in the skeletal muscle 31

Adrenalectomy

Leucine aminopeptidase activity in plasma of rats, after combined carboxy- and methemoglobinemia 175

Age, Dependence on

Lead acetate toxicity in rats in relation to age and sex 265

ALA-D

see δ -Aminolevulinic Acid Dehydratase

Alkaline Phosphatase

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

δ -Aminolevulinic Acid Dehydratase

Interactions of lead and glutathione with delta-aminolevulinic acid dehydratase 153

Aminotransferases

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

Amobarbital

see Barbiturates

Antidepressants, Tricyclic

see Doxepin

Antidotes

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 99

217 A0

Investigations on the correlation between abnormalities of neuromuscular transmission due to some organophosphates and activity of acetylcholinesterase in the skeletal muscle 31

ATPase

The effect of p,p'-DDT (dicophane) and its metabolites on ATPase activity in rat liver mitochondria 19

Atropine

Investigations on the effects of diazepam in acute experimental intoxication with fluostigmine 223

Barbiturates

Comparison of haemoperfusion and haemodialysis in the therapy of barbiturate intoxication in dogs 163

Benzene

Cytogenetische Untersuchungen bei chronischer Benzolexposition 39

Benzydine

Animal studies on the kinetics of benzydine and 3,3'-dichlorobenzydine 61

Benzodiazepines

see Diazepam

Biotransformation

see Pharmacokinetic

ALA-D

see δ -Aminolevulinic Acid Dehydratase

Alkaline Phosphatase

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

δ -Aminolevulinic Acid Dehydratase

Interactions of lead and glutathione with delta-aminolevulinic acid dehydratase 153

Aminotransferases

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

Amobarbital

see Barbiturates

Antidepressants, Tricyclic

see Doxepin

Antidotes

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 99

217 A0

Investigations on the correlation between abnormalities of neuromuscular transmission due to some organophosphates and activity of acetylcholinesterase in the skeletal muscle 31

ATPase

The effect of p,p'-DDT (dicophane) and its metabolites on ATPase activity in rat liver mitochondria 19

Atropine

Investigations on the effects of diazepam in acute experimental intoxication with fluostigmine 223

Barbiturates

Comparison of haemoperfusion and haemodialysis in the therapy of barbiturate intoxication in dogs 163

Benzene

Cytogenetische Untersuchungen bei chronischer Benzolexposition 39

Benzydine

Animal studies on the kinetics of benzydine and 3,3'-dichlorobenzydine 61

Benzodiazepines

see Diazepam

Biotransformation

see Pharmacokinetic

Bromoureides

Untersuchungen zum UV-photometrischen Nachweis der kurzzeitig zurückliegenden Einnahme therapeutischer und suicidaler Dosen von Carbromal (Adalin) im Harn. II. Zum Nachweis von Bromoureiden in der chemischen Toxikologie 271

Carbamates

Methods for the estimation of acetylcholinesterase activity in the erythrocytes of laboratory animals given carbamates or organophosphorus compounds 197

Carbon Monoxide

Leucine aminopeptidase activity in plasma of rats, after combined carboxy- and methemoglobinemia 175

A case of carbon monoxide poisoning during skin diving 181

Carboxyhemoglobinemia

Leucine aminopeptidase activity in plasma of rats, after combined carboxy- and methemoglobinemia 175

Carbromal

Untersuchungen zum UV-photometrischen Nachweis der kurzzeitig zurückliegenden Einnahme therapeutischer und suicidaler Dosen von Carbromal (Adalin) im Harn. II. Zum Nachweis von Bromoureiden in der chemischen Toxikologie 271

Cardiotoxicity

Acute prenylamine poisoning 217

Cardiotoxische Wirkungen von Trichloräthylen 93

Catecholamines, Urinary Excretion

Pharmacokinetics, cardiovascular and metabolic actions of cyclohexylamine in man 243

Chlorfenvinphos

Methods for the estimation of acetylcholinesterase activity in the erythrocytes of laboratory animals given carbamates or organophosphorus compounds 197

o-Chlorobenzylidene Malononitrile

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 99

Chromatography, Gas

Pharmacokinetics, cardiovascular and metabolic actions of cyclohexylamine in man 243

Determination of doxepin in autopsy material 7

Gaschromatographische Bestimmung von Methaqualon in kleinen Mengen Serum nach Einnahme therapeutischer Dosen 25

Metabolism, excretion and toxicology of methylchloroform in acute and subacute exposed rats 233

Zum Nachweis von Methpyrrolon in Organteilen 193

Analysis of "morphine base" 1

Chromatography, Thin-layer

Determination of doxepin in autopsy material 7

Analysis of "morphine base" 1

Chromosome Aberrations

Cytogenetische Untersuchungen bei chronischer Benzolexposition 39

Chromosomes, Human

Cytogenetische Untersuchungen bei chronischer Benzolexposition 39

Citrimazole

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

Codaine

see Morphine Base

Copper

Enterohepatic circulation of ^{64}Cu , ^{59}Mn and ^{203}Hg in rats 51

Cryptopine

see Morphine Base

CS

see o-Chlorobenzylidene Malononitrile

Cyanide Administration

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 99

Cyanide Formation

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 99

Cyclamate

see Cyclohexylamine

Cyclohexylamine

Pharmacokinetics, cardiovascular and metabolic actions of cyclohexylamine in man 243

Cytogenetics

Cytogenetische Untersuchungen bei chronischer Benzolexposition 39

DDT

The effect of p,p'-DDT (dicophane) and its metabolites on ATPase activity in rat liver mitochondria 19

The effect of p,p'-DDT (dicophane) and its main metabolites on the respiration of rat liver mitochondria 137

DDT-Metabolites

see DDT

Determination

Untersuchungen zum UV-photometrischen Nachweis der kurzzeitig zurückliegenden Einnahme therapeutischer und suicidalen Dosen von Carbromal (Adalin) im Harn. II. Zum Nachweis von Bromoureiden in der chemischen Toxikologie 271

Determination of doxepin in autopsy material 7

Polarographische Glutethimid-Bestimmung in biologischem Material 81

Gaschromatographische Bestimmung von Methaqualon in kleinen Mengen Serum nach Einnahme therapeutischer Dosen 25

Zum Nachweis von Methyprylon in Organanteilen 193

Analysis of "morphine base" 1

DFP

Investigations on the effects of diazepam in acute experimental intoxication with fluostigmine 223

Investigations on the correlation between abnormalities of neuromuscular transmission due to some organophosphates and activity of acetylcholinesterase in the skeletal muscle 31

Diazepam

Über eine tödliche Diazepam (Valium) Vergiftung bei einem drogenabhängigen Jugendlichen 147

Investigations on the effects of diazepam in acute experimental intoxication with fluostigmine 223

3,3'-Dichlorobenzidine

Animal studies on the kinetics of benidine and 3,3'-dichlorobenzidine 61

Dicophane

see DDT

Diisopropylfluorophosphate

see DFP

Distribution

see Pharmacokinetic

Diving

A case of carbon monoxide poisoning during skin diving 181

Doxepin

Determination of doxepin in autopsy material 7

Drug Abuse

Über eine tödliche Diazepam (Valium) Vergiftung bei einem drogenabhängigen Jugendlichen 147

Analysis of "morphine base" 1

EDTA-Co₂-Therapy

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 99

Endoplasmic Reticulum

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

Enterohepatic Circulation

Enterohepatic circulation of ⁶⁴Cu, ⁵²Mn and ²⁰³Hg in rats 51

Enzyme Induction

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

Fatty Acids, Nonesterified

Pharmacokinetics, cardiovascular and metabolic actions of cyclohexylamine in man 243

Fluoride Selective Electrode

Fluoride selective electrode procedure for fluorated organophosphate cholinesterase inhibitors 185

Fluostigmine

see DFP

Glutamate Dehydrogenase

The effect of p,p'-DDT (dicophane) and its main metabolites on the respiration of rat liver mitochondria 137

Glutathione

Interactions of lead and glutathione with delta-aminolevulinic acid dehydratase 153

Glutethimide

Polarographische Glutethimid-Bestimmung in biologischem Material 81

Hemodialysis

Comparison of haemoperfusion and haemodialysis in the therapy of barbiturate intoxication in dogs 163

Hemoperfusion

Comparison of haemoperfusion and haemodialysis in the therapy of barbiturate intoxication in dogs 163

Heroin

see Morphine Base

Histochemistry

Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109

Inhalation Toxicity Studies

Metabolism, excretion and toxicology of methylchloroform in acute and sub-acute exposed rats 233

Isofluorophate

see DFP

Lead

Interactions of lead and glutathione with delta-aminolevulinic acid dehydratase 153

Lead Acetate

Lead acetate toxicity in rats in relation to age and sex 265

Leucine Aminopeptidase

Leucine aminopeptidase activity in plasma of rats, after combined carboxy- and methemoglobinemia 175

Malononitrile

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 90

Mandrax®

see Methaqualone

Manganese

Enterohepatic circulation of ^{64}Cu , ^{55}Mn and ^{203}Hg in rats 51

Melsed®

see Methaqualone

Melsedin®

see Methaqualone

Mercury

Enterohepatic circulation of ^{64}Cu , ^{55}Mn and ^{203}Hg in rats 51

Methaqualone

Gaschromatographische Bestimmung von Methaqualon in kleinen Mengen Serum nach Einnahme therapeutischer Dosen 25

Methemoglobinemia

Leucine aminopeptidase activity in plasma of rats, after combined carboxy- and methemoglobinemia 175

Methylchloroform

Metabolism, excretion and toxicology of methylchloroform in acute and sub-acute exposed rats 233

Methyprylon

Zum Nachweis von Methyprylon in Organanteilen 193

Mevinphos

Methods for the estimation of acetylcholinesterase activity in the erythrocytes of laboratory animals given carbamates or organophosphorus compounds 197

Mitochondria, Rat Liver

The effect of p,p'-DDT (dicophane) and its metabolites on ATPase activity in rat liver mitochondria 19

The effect of p,p'-DDT (dicophane) and its main metabolites on the respiration of rat liver mitochondria 137

Monocrotophos

Methods for the estimation of acetylcholinesterase activity in the erythrocytes of laboratory animals given carbamates or organophosphorus compounds 197

Morphine

see Morphine Base

Morphine Base

Analysis of "morphine base" 1

Morphology, Pathological

Tödliche Perchlormethylmercaptan-Intoxikation 121

Myelopathy

Cytogenetische Untersuchungen bei chronischer Benzolexposition 39

Neuromuscular Transmission

Investigations on the correlation between abnormalities of neuromuscular transmission due to some organo-

- phosphates and activity of acetylcholinesterase in the skeletal muscle 31
- Nitrite**
Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 99
- Leucine aminopeptidase activity in plasma of rats, after combined carboxy- and methemoglobinemia 175
- Obidoxime**
Investigations on the effects of diazepam in acute experimental intoxication with fluostigmine 223
- Organophosphates**
Investigations on the correlation between abnormalities of neuromuscular transmission due to some organophosphates and activity of acetylcholinesterase in the skeletal muscle 31
- Methods for the estimation of acetylcholinesterase activity in the erythrocytes of laboratory animals given carbamates or organophosphorus compounds 197
- Fluoride selective electrode procedure for fluorated organophosphate cholinesterase inhibitors 185
- Investigations on the effects of diazepam in acute experimental intoxication with fluostigmine 223
- Oxetremorine**
Attempted treatment of tri-ortho-cresyl phosphate intoxication with a water-soluble protein-free extract of mammalian heart muscle 89
- Papaverine**
see Morphine Base
- Pentobarbital**
see Barbiturates
- Perchloromethyl Mercaptan**
Tödliche Perchloromethylmercaptan-Intoxikation 121
- Pharmacokinetic**
Animal studies on the kinetics of benzydine and 3,3'-dichlorobenzidine 61
- Pharmacokinetics, cardiovascular and metabolic actions of cyclohexylamine in man 243
- Metabolism, excretion and toxicology of methylchloroform in acute and subacute exposed rats 233
- Phenobarbital**
Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109
- see also* Barbiturates
- Phenylbutazone**
Funktionell-morphologische Untersuchungen zur arzneimittel-induzierten Hyperphosphatasämie bei Beagle-Hunden 109
- Phospholine**
Investigations on the correlation between abnormalities of neuromuscular transmission due to some organophosphates and activity of acetylcholinesterase in the skeletal muscle 31
- Poisoning, Human**
Cytogenetische Untersuchungen bei chronischer Benzolexposition 39

- Polarography**
Polarographische Glutethimid-Bestimmung in biologischem Material 81
- Potentiometry**
Fluoride selective electrode procedure for fluorated organophosphate cholinesterase inhibitors 185
- Prenylamine**
Acute prenylamine poisoning 217
- Recosen®**
Attempted treatment of tri-ortho-cresyl phosphate intoxication with a water-soluble protein-free extract of mammalian heart muscle 89
- Sarin**
Fluoride selective electrode procedure for fluorated organophosphate cholinesterase inhibitors 185

Secobarbital*see* Barbiturates**Sex, Dependence on**

Lead acetate toxicity in rats in relation to age and sex 265

Sodium Nitrite*see* Nitrite**Spectrophotometry, Infrared**

Determination of doxepin in autopsy material 7

Spectrophotometry, Ultraviolet

Untersuchungen zum UV-photometrischen Nachweis der kurzzeitig zurückliegenden Einnahme therapeutischer und suicidalen Dosen von Carbromal (Adalin) im Harn. II. Zum Nachweis von Bromoureiden in der chemischen Toxikologie 271

Determination of doxepin in autopsy material 7

Spectrum Analysis, Mass

Determination of doxepin in autopsy material 7

Analysis of "morphine base" 1

Talcord®

Methods for the estimation of acetylcholinesterase activity in the erythrocytes of laboratory animals given carbamates or organophosphorus compounds 197

Thebaine*see* Morphine Base**Thiocyanate, Excretion**

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 90

Thiosulfate, Therapy

Formation of cyanide from o-chlorobenzylidene malononitrile and its toxicological significance 90

Transaminases*see* Amino transferases**Trichloroacetic Acid**

Orale Trichloräthylenvergiftung bei einem 4½ Jahre alten Kind 13

Metabolism, excretion and toxicology of methylchloroform in acute and subacute exposed rats 233

1,1,1-Trichloroethane*see* Methylchloroform**Trichloroethanol**

Metabolism, excretion and toxicology of methylchloroform in acute and subacute exposed rats 233

Trichloroethylene

Cardiotoxische Wirkungen von Trichloräthylen 93

Orale Trichloräthylenvergiftung bei einem 4½ Jahre alten Kind 13

Trichloromethanesulfonyl Chloride*see* Perchloromethyl Mercaptan**Tri-o-Cresyl Phosphate**

Attempted treatment of tri-ortho-cresyl phosphate intoxication with a water-soluble protein-free extract of mammalian heart muscle 89
